### **Renovation Application Special By-Law for Cosmetic, Minor and Major Renovations**

Owners seeking to undertake renovations to their lots are required to comply with the Special By-Law for Cosmetic, Minor and Major Renovations (Renovations By-Law) and the following procedures:

1. Lot owners are required to provide details of the proposed Minor & Major renovations by completing the following Application Form and submitting it with the required supporting documents to Waratah Strata Management at least 21 days before undertaking any work.
2. Cosmetic renovations do not require strata approval, so you are free to proceed with those works without approval unless Minor or Major renovations also form part of your renovations.
3. The completed Application Form and supporting documents will then be circulated to the Strata Committee for review.
4. You will be advised if any further information is required to be provided.
5. You will be advised if approval has been provided in accordance with the Renovations By-Law.
6. Should a specific by-law be required (for works outside the scope of the Renovations By-Law) you will be asked to have one drafted, ideally by a strata specialist lawyer, which will then need to be submitted to a general meeting of the Owners Corporation.

No work may commence without the written approval of the Owners Corporation and non-compliance may result in penalties being applicable.

#### **Other documentation that may be required:**

Subject to the nature of the works you may also be asked to submit an Engineers Report, a Dilapidation Report or further detailed drawings, plans etc.

Should the works also require Council approval, a Development Approval (DA) or Complying Development Certificate (CDC) would need to be obtained from Council and a copy provided to the Owners Corporation. Please check with your local council to see if your proposed works fall into this category. Please note your works may be approved by Council and not by the Owners Corporation or vice versa. Works cannot commence until all require approvals have been obtained.

#### **Hard Flooring**

Should your application include to install hard flooring, please check whether there is a specific hard flooring by-law for your strata plan. These applications will then be dealt with either under the Hard Flooring By-Law or as a Minor Renovation under the Renovations By-Law.

Should you proceed to install hard-flooring you are encouraged to use the highest grade of underlay/sound insulation available (if not defined in the by-laws) to minimise the risk of any breaches of by-laws in relation to causing noise disturbance to other residents. You should be aiming to install flooring that creates no more noise to adjoining residents than would a good quality carpet and underlay. Please ensure that you independently check the quality of the underlay being proposed by your flooring installer as they frequently quote for the lowest cost rather than the highest quality. If noise complaints are received from adjoining residents you may be required to remove the timber flooring or install additional carpets, mats, runners, etc.
